

Chola Bronze Casting Method

Title: Madhuchishtavidhanam (Lost Wax Casting)

Source Type: Shilpa Shastra Extract

1. Sculpting the wax model with exact anatomical proportions.
2. Coating the wax model with special Kaveri river clay (moulding).
3. Heating the mould to melt and drain the wax.
4. Pouring molten panchaloha (5-metal alloy) into the hollow clay mould.
5. Breaking the clay mould and hand-polishing the bronze idol.
