

Palm Leaf Manuscript Prep

Title: Suvadi (Palm Leaf) Preservation

Source Type: Archival Documentation

1. Harvesting tender palmyra leaves.
2. Boiling the leaves in water with turmeric and neem leaves for preservation.
3. Drying the leaves in the shade and pressing them under weights.
4. Etching letters using an iron stylus (Ezhuthani).
5. Rubbing soot mixed with lemongrass oil over the etched leaves to make the text legible.
